Final Draft Of Peace Is Approved

COVENANT IS RUSHED BY LEAGUE

PRESIDENT WILSON IN ATTENDANCE AT MOST BUSY SESSION.

NEXT MEETING ON WEDNESDAY

Entire Plan Now Has Been Amended and Agreed on by Commission.

BULLETIN:
Paris, March 25.—The American peace delegation, it is understood, had definitely agreed upon the amendment it will offer to article X of the covenant of the league of nations to safeguard the Monroe doctrine.

[BY ASSOCIATED PRESS.]
Paris, March 25.—During a three hour session last night the league of nations commission, considering proposed amendments to the covenant, disposed tentatively of the first sixteen sections, agreeing upon a number of changes in form which the members of the commission believe will meet more than fifty percent of the objections offered by Senator Lodge and other American senators.

President Wilson was in attendance at the session at which suggestions from neutral nations as well as belligerents were discussed. No action was taken on amendments for safeguarding the Monroe doctrine, but this subject probably will be considered Wednesday.

The Japanese amendment to secure the equality of nations belonging to the league was not considered tonight and no action was taken in regard to French amendments for the creation of an international military staff.

The entire covenant when amended and agreed upon by the commission, will be submitted to a drafting committee which will prepare a definite legal form before its submission to the supreme council.

GENERAL KING WELL PLEASED WITH WORK OF LOCAL COMPANY
"I am well pleased with the work of your company," General Chas. King told Capt. Edward Baumann, commanding Company "G," after an inspection of the company at the armory last night. "The men certainly show up well in the movements and it is plain to be seen they are getting some good drill."

Company "G" passed through the inspection with flying colors. Only a couple of "boners" were noted. General King's instruction that the purpose of the inspection was to inspect the company, not the men, was the last night. The men certainly show up well in the movements and it is plain to be seen they are getting some good drill.

More Sunshine and Less Snow Than Ever Before
[BY ASSOCIATED PRESS.]
Washington, March 25.—There was more sunshine and less snow throughout most of the United States during the winter just passed than ever before in the memory of the present generation. In only one section of the country—the plateau region—was the weather severe and there low temperature records were established.

Culled Giant is Sure Gone Baby

Milwaukee, Wis., March 25.—George Bell, 25, the 7 foot 11 inch colored man, of a musical production playing at a local theater, was shot and instantly killed today at a rooming house.

Maceo Baby, 25, who traveled with the colored giant, was arrested and locked up by local detectives in connection with the crime. The shooting is said to have been the result of a quarrel.

Bell weighed 875 pounds, wore a 36 collar, 28 shoes and it is said he was in the habit of eating four pounds of steak when he felt hungry.

While there was a joyous, care-free holiday spirit among the immense flag waving crowds, there was an unmistakable grim business like attitude on the part of the 27,000 men. The doughboys were in heavy marching order.

Along the line of march were little groups of men who were unable to participate in the glory of the marchers—soldiers of the division who had lost a leg, or an arm at Guillemont farm or at the Le Selle river, men who were otherwise injured in the daring attacks that crushed the pride of the German legions.

Hush Falls Over Crowd.
After the first round of cheers, a hush fell over the crowd and hands were uncovered as a caisson draped in mourning came into sight. A great service flag with a gold star for each of the men who perished in service overseas, flanked the caisson.

The crowds packed the sidewalks and crossed almost to the point of suffocation. Every window was crowded, and owners of rooms facing the avenue charged fancy prices to spectators. Single windows, from which several persons could see the procession, brought at night as \$75.

BORAH ASKS WHERE HUGE FUNDS WENT

"WHAT HAS BECOME OF \$100,000,000 FOOD APPROPRIATION?"

GIVES ANSWER TO HITCHCOCK

"Cut Off Hungary From All Supplies," is Senator's Solution.

[BY J. BART CAMPBELL, INTERNATIONAL NEWS STAFF CORRESPONDENT.]
Washington, D. C., March 25.—"What has become of the \$100,000,000 food appropriation for Europe after we were assured that it would help to check the spread of Bolshevism westward?" Senator Borah asked this pointed question today when his attention was directed to Senator Hitchcock's declaration that he thought the entire powers would succeed in combating the belligerent Bolshevists of Hungary, "economic pressure" rather than have to resort to military measures.

"Cut Off Hungary from food and arms—blockade the Hungarian Bolsheviks—and I believe they will not quarrel with us very long," such was Senator Hitchcock's suggestion. "Isn't that precisely what we have been seeking to do to the Bolsheviks in Russia?" was Senator Borah's rejoinder.

Administration senators like Hitchcock and anti-administration senators like Borah whose investigation senators have been making since the war, would get together to crush with an iron hand their common foe, the Bolsheviks, the time for half measures having passed.

"Economic pressure," properly expressed by the entire powers, controlling as they do the great material resources of the world, ought soon to bring the Bolsheviks to terms, Hitchcock added. It seemed to him, he said, that what was transpiring in Hungary would help to effect an early and satisfactory conclusion of the peace conference and the liberation of Europe from warfare and anarchy.

"How long have we been talking it was about helping to check the spread of Bolshevism westward," was another of Borah's inquiries.

Urges a Referendum.
"I am firmly convinced that a referendum on the league of nations covenant would not only bring about its rejection by a vast majority of the American people," Borah added, "but would show that the average American does not desire to be meddling in European affairs any more than he wants Europeans meddling in American affairs. There has been a whole lot of talk about our helping to straighten out those things in Europe which the Hungarian situation has served to again emphasize. If the Europeans cannot straighten them out themselves are we to be expected to straighten them out for them?"

"I see there is a disposition in certain quarters now," concluded Borah, "to safeguard the Monroe doctrine. May we not expect the same attitude in Washington's farewell address?"

Spirit of Janesville Shown By Council in Retention Of Schmitt As Labor Aid

Recognizing the work of the labor bureau as indispensable, the city council last night unanimously passed a resolution continuing Fred Schmitt in office as manager of the service under the supervision of the Chamber of Commerce.

The measure is a temporary one, providing for paying his salary for a period of 90 days, when it is hoped a federal or state appropriation will have been secured to carry the work for another year.

The passage of Alderman Dulin's, which was passed unanimously. He pointed out how at a fire last week the key was missing from the box nearest the fire.

Suit is Brought Up.
A letter was read from C. A. Enslow asking for a \$400 settlement for injuries sustained by Earle Williams, a local youth, received while playing in the Washington school playground. The latter said that suit was about to be commenced. Upon recommendation of City Attorney Cunningham the claim was unanimously disallowed.

To determine what changes will be necessary and to find out what the city must do about abandoning the city lock-up, the public building committee was ordered to consult members of the state board of control, upon Alderman Jones' resolution, which adopted. The board recently ruled that the lock-up would have to be moved from the basement of the city hall. Alderman Cronin suggested that the county jail be used, while others were in favor of fixing up a few cells on the second or third floor of the city hall. The committee was ordered to report back to the council after conferring with the board.

Order Fire Inspection.
The fire chief was ordered to make an inspection at once of all alarm boxes and hydrants. The \$400 claim of Earle Peterson against the city was disallowed, the committee on public buildings was ordered to confer with the board of control in regard to abandoning the present lock-up at the city hall, and the extension of water and sewer mains to care for the city's growth, made up the program of other business transacted by the council.

CLOUD OF HOSTILITIES SWEEPS EAST EUROPE; BOLSHEVISTS GAINING

Agent from Vienna reports that the date for transformation and coalition of insurgent governments already has been fixed for some time in April.

BULLETINS:
Paris, March 25.—Reports have reached the peace conference that inter-allied troops will be landed at Spalato on the Dalmatian coast, because of disorders that have occurred there and for fear greater troubles may arise. The Hungarians are reported to be trying to spread bolshevism to that part of the Adriatic coast which they controlled before the downfall of Austria.

Vienna, March 25.—All members of the allied missions in Budapest have been interned, including Colonel Vix, the chief of the French mission, according to travelers arriving here by automobile from the Hungarian capital.

(By Associated Press)
Paris, March 25.—The conditions in Hungary seem to have affected German Austria. Advances to the American peace conference delegates from private agents in Vienna indicate the existence of a threatening state of affairs there.

On of these agents, who has just come from Vienna reports that even the date has been fixed for some time in April for the transformation of the existing government into a soviet government which will co-operate or merge with the government of the Hungarian soviet.

WHAT DR. NOLEN, CITY PLANNER, SAYS
Dr. John Nolen, perhaps the most noted and experienced city planner in the world, who has been engaged to make a city plan for Janesville, inspected the proposed site for the new high school on Main street when he was here. He said that if the city did not get that tract for its school they ought to have had the chance of getting it for a park.

Few realize the extent of that property. It extends from Main street to the river, a distance of 370 to nearly 400 feet, and 630 feet along the street. When we consider that our city blocks are only 244 feet, it will be seen that the city will have a tract of land there of about six acres—about a block and a half wide by two blocks and a half long. Put that on your own street, and see what it means! No such tract of land can be had so near the heart of the city and so accessible without destroying forty or fifty homes and vacating necessary streets at a cost of \$200,000 or more.

The school board plan to fill that tract to the level of Main street. (Filling will cost ten cents a load or less), and to build a protecting wall along the river. It has been suggested that a driveway be made along the bank. For when Mr. Nolen's plans to beautify our river through the city are carried out, it will be worth going to see.

It is an easy matter to find fault with the site which every one approves who has given time and thought to it. And it is easy to say that a better site can be found, but no one can find it. Remember that when you hear such talk.

Dog License Bills Will Be Presented Late Today Before State Legislature

(SPECIAL TO THE GAZETTE)
Madison, March 25.—Several bills for the licensing of dogs will be given before the legislature this afternoon. Farmer members of the legislature are in opposition to the measures. The principal bill which has been introduced on this subject was offered by Senator Skogmo, and provides that every owner of a dog shall obtain a license from the town, village or city clerk, on or before June 30 of each year, and pay a license fee of three dollars. Town assessors are directed to make a census of the number of dogs in each town or village and report the same to the proper authorities.

This bill is favored by the Wisconsin sheep growers association who have had the bill presented for the past five sessions. As framed the measure provides that the license money shall be used as a fund to pay damages in case of the destruction of farmers' live stock by dogs.
On Thursday hearing will be given on the Nye bill providing for the education of soldiers and marines at Wisconsin's higher institutions of learning. The bill provides that any person who is honorably discharged, released or on leave from any branch of the military or naval forces of the United States, and who at the time of entering such service, which must have been prior to October 1, 1913, was a resident of this state, may enter the Wisconsin Mining school, state institute, any of the several state normal schools or the state university with the following privileges. He shall not be required to pay tuition or incidental fees of any kind.

all homes, businesses and art treasures in private hands.

Harbin, March 25.—Rather than serve at the front against the Bolsheviki, the Russian government at Omsk, have surrendered their arms and turned over to the Bolsheviki from Irkutsk. The Rumanians also refused to guard the railways in Siberia.

PRESS ACCUSES PEACE CHIEFS.
Paris, March 25.—Morning newspapers unanimously charge the Paris peace conference with responsibility for Hungary's embracing Bolshevism and the delay of peace, but the manner in which it has incurred responsibility is variously explained.

While treating the Hungarian episode as a light case because it does not believe the whole country will, imitating Budapest, become bolshevik, the Post accused the conference of delaying peace, and the newspaper called the league of nations "the will-o'-the-wisp" called the league of nations. It also expresses its belief that certain international financial interests are working against the independence of Poland.

THE NEWSPAPERS' PANACEA.
The newspapers' panacea is to treat the diplomatic situation as if it was treated militarily when everything is entrusted to Marshal Foch, and it suggests that supreme direction be given Premier Clemenceau so that "probable failure arising from divided councils may be avoided." The newspaper ascribes the gravity of the situation to a dangerous miscalculation which assumed a much longer war and left the Allies unprepared to meet the emergency.

The newspaper maintains the remedy now is prompt and combined military action against the Magyar government.
Conferences, delays and a refusal to face the Russian problem are directly responsible for the present disquieting situation, says the Mail. The conference talks, the bolshevik acts. The fruits of immense sacrifices on the battlefield are being impeded because of the conference's failure to take business for the dispatch of which it exists.

LEAGUE HELD OBSTACLE.
The Daily News deduces that the league of nations has been the cause of the delay of peace. It says: "The tragic situation is due to the failure of the allies to provide the central empires with food and raw materials while they are attempting to reconcile the policy of territorial spoliation with the spirit of league of nations."
The newspaper also condemns the refusal of the peace conference to recognize and make terms with the Russian bolshevik government.

Negotiations on 4 Months.
Paris, March 25.—Bolshevik dispatches to the L'Humanite Gazette say that Count Michael Károlyi, former premier of Hungary, has been negotiating with the Moscow soviet government since last November through M. Rakovsky, the bolshevik leader in London. With the object of introducing bolshevism into Hungary, Rumania and Jugoslavia.
"Rumania which is the last rampart against bolshevism, is seriously threatened by 15,000 bolshevik troops and Hungarian divisions," the dispatch says.

"The allies should rush men, munitions and food there, for every hour lost now has grave consequences."
Dispatches received at Bern say that Nikolai Lenin will send a delegation to confer with M. Pogany, who is said to be the "real ruling chief of Hungary."
The Rumanians and Czechoslovaks are reported to be mobilizing troops in view of being compelled to reinforce their frontier guards.

Allied Missions May Quit.
Paris, March 25.—Unofficial reports from Budapest state that allied missions there are debating the advisability of leaving and that the disarmament of French troops in the city is being considered. Order prevails and no injury has as yet been done to foreigners. American representatives are being assured protection and may be asked to remain, it is said.

Marital law has been declared and the death penalty has been prescribed for armed resistance to the bolshevik, for robbery and looting. A fine of 5,000 crowns has been fixed for the sale of alcoholic liquor and a fine of 10,000 crowns for drinking it. Two British monitors are reported to have arrived at Budapest, having been under fire on their way up the Danube. Other British and French vessels are near at hand. A British patrol boat was seized by the authorities but was returned with apologies by the government.

It is said that rumors that Hungary has declared war on Rumania, Czechoslovakia and Jugoslavia are extremely doubtful. Six hundred Hungarians who have been prisoners of war in Russia are said to be returning daily across the Carpathians, being under the influence of bolshevik doctors.

Allied Mission Dismissed.
Vienna, March 25.—A dispatch to the Neue Freie Presse says, the British-French mission at Budapest, consisting of 245 men, has been dismissed and that a wireless message has been sent to Nikolai Lenin, announcing that the entente missions have left Budapest. The message added: "French troops, filtered by bolsheviks, have been dismissed by us." Moun-

tes have occurred in some French regiments.
"The phrase 'the entente nations won the war, but lost the peace' may come true, if they continue to accept and dismember the defeated nations," says the Neue Freie Presse.
The executive committee of workmen's councils of German-Austria, replying to the proclamation of the Hungarian parliament, says it is too "of the opinion that after the collapse of imperialism in Germany and Austria Hungary, the imperialist victors are our chief enemies. If the Paris conference seeks to offer violence to entire nations and violates the right of self-determination, it will meet with determined resistance from the workmen."

Unfortunately your appeal to us to follow your example cannot be complied with, for the entente has cut off our supplies. We would starve before the Russian soviets could help us. We, therefore, are in a worse position than you, and are completely dependent upon the entente.

Quick Action Urged.
Paris, March 25.—All allied delegations to the peace conference are very anxious regarding the situation in Eastern Europe and are impressed with the necessity of quickly doing something to hasten the return of normal conditions to the rest of Europe. President Wilson and Premier Lloyd George, Clemenceau and Orlando have decided that beginning Tuesday morning they will hold two sessions daily to reach a conclusion in the shortest possible time the principal questions concerning the Franco-German and the Malo-Jugo-Slav frontiers, reparations and the League of Nations. The ministers of foreign affairs who have heretofore been included in important conferences will not be present during the premiers' meetings.

Bols Reach Brody, Galicia.
Bern, March 25.—The Bolsheviki army which is on its way to Hungary has reached Brody, according to the latest news received from the city. In North-eastern Galicia about fifty miles east of Lemberg.

Non-Socialists Oppose Allies.
Vienna, March 25.—A dispatch to the Neue Freie Presse declares that all the non-socialist parties in Hungary will support the new government. For the reason, it is said, that has decided to the rural population is reported to have gone over to the communists.

Developments Long Set.
It is declared that the recedes here it is in Budapest had long since been arranged by Count Károlyi who surrendered his office of provisional president in favor of the provisional government. This change of circles was a political maneuver. Masquerading under the name of a soviet regime, bolshevism has always in Hungary all the Hungarian governments, whether they were headed by the late Count Tisza, Count Károlyi or others.

Huns Ordered to Rejoin Units.
Basle, Switzerland, March 25.—The Hungarian commissioner for military affairs, says a Budapest dispatch today has issued an order instructing all soldiers to rejoin their units without delay. "If the soldiers do not do their duty, the Hungarian soviet republic is doomed," he adds. The revolutionary government requires armed discipline and it will create an army well equipped and disciplined.

Sec. Glass In Appeal For Loan, Says "Don't Haggle Over Cost"

Chicago, March 25.—In two speeches here, Carter H. Glass, secretary of the treasury, appealed to Chicagoans not to "haggle over the cost" of the war and to do everything within their power to make the coming "Victory" loan campaign a success.

Addressing 1,500 Liberty loan workers, he said:
"What is meant by the sacrifices of war for America?
"Where are our devastated fields and ruined cities? Where our cathedrals destroyed and homes pillaged? Where our flooded mines and pillaged factories? Where our lost treasures and perished works of art? Where our devoted women and starved children and wrecked men? Where this wide continent does hunger stalk abroad and pestilential disease claim its thousands of victims?
"Is it a sacrifice to invest one's money in the interest-bearing obligations of one's government in order to make everlastingly secure the nation's freedom as well as the nation's property?"

"Is it a grave sacrifice to devote one's labor to such a cause, and is the process to acquire the habit of thrift and saving, so sadly lacking as a characteristic of the American people? We are taught for us nearly three years before we began to fight with them."
Mr. Glass then reviewed the allied losses in the war, and continued: "We call this the Victory Liberty loan. It is that and more; it is a thanksgiving loan."
In closing, he expressed belief the loan would "go over with a bang."

Pay All Now or Loan.
"The American people now are to determine whether they prefer to loan their government money, with which they can pay their debts, taking care as security—and nobody doubts the solvency of the security—getting a fair rate of interest, or the other method of having it taken away from them in the shape of taxes, from which they will get no return."
"I think myself the people prefer to invest their money and get the return rather than compel the government to issue currency, take us to pieces, industry and suspend commerce throughout the country. Therefore, when we announce the rates and the terms, we shall expect the American people to pay all now or loan."

Thought 3 Little Children Needed Mother's Care
"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a mother's love and care. A cousin in California wrote me about May's Wonderful Remedy and I took a course of it. I have since been entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. High School News

Professor Paul E. Nelson of St. Paul's college, Tarsus, Turkey, spoke before the high school students yesterday. Professor Nelson has been in Turkey for some years, doing missionary work among the natives.

He took up the conditions of the schools in Turkey. Women are given no education, as they are believed to be utterly incompetent of learning the rudiments of reading and writing. He then told of the attitude of the various peoples of the Turkish empire and of their miserable condition. The people in Armenia he said were the most unfortunate of all.

"Things that happened in that country are indescribable," Mr. Nelson stated. Family after family were forced from their homes and driven into the desert, large numbers of them dying from the cruelties imposed on them by the Turkish soldiers.

He then told how Turkey would probably be divided up into sections and put under the protection of the large nations of the world. Armenia will, according to his notion, come under the protection of the United States. Mr. Nelson illustrated his talk by relating several personal experiences, which came to his attention, while teaching in the city of Tarsus. He expects to return to Turkey this summer.

Brodhead News

Mrs. Will Hawk went to Juda Monday for a brief visit with her parents.

Grant Wood, a former Brodhead resident, but now of Houston, Texas, arrived here Monday on a visit to his sister, Mrs. Anna Mitchell.

Mrs. Jessie Blackford and daughter, Lois, Janesville, spent Saturday and Sunday in Brodhead with her parents and others.

Mrs. G. H. Christman, Janesville, spent Saturday and Sunday at the home of her daughter, Mrs. B. H. Bouton.

Miss Helen Beckwith, Milwaukee, was here over Sunday the guest of her mother.

Mr. and Mrs. Elmer Meacham were here over Sunday the guests of Mr. and Mrs. P. J. Smith. Mr. Meacham has been in the service being stationed at Fellman Bay, N. J., with the naval reserve. He has been discharged and was on his way home to Downing. He formerly resided in Brodhead.

C. E. Doolittle, Stoughton, is spending a day or two here.

Mrs. H. W. Planno, who has been in the hospital at Janesville for a fortnight, was able to be brought home today.

Voice of the People

THE HIGH SCHOOL SITE ON MAIN STREET.

To the Editor: We object to it; first, that it is not a good location; second, that it costs too much for such a site; third, that the people do not want it there. The people will not tamely be led into such a foolish and costly undertaking.

The sensible people of Janesville will register a vigorous objection to this site, on the river, at the election, April first. Why should anyone insist upon that narrow strip of land between Main street and the river? We can't get any more land, unless we get it along down the river, and that is the main objection to the site. If the land was high and dry it might do, but as it is, it is absolutely unfit for a school site. Talk about athletic field! No competent person would ever select it for such purpose. Why does anyone want it there? No soil, lower than any other part of the city, nothing but sand and water, beautiful scenery, on the opposite side of the river. Most of the time the river at that location is nothing but a stinking old pond in the summer time. Now, we repeat, why do you want it there? It is located at that particular place, on the river? Why not get up on high ground away from the river? Two thousand acres of vacant land in the head by the city can not get a decent site for a high school. We repeat, why?

The people will never vote any money to buy that site on the river. Wilson Lums, Dr. Nuzum, Dr. Pember.

IT'S WEAR LIKE THIS THAT CUTS YOUR SHOE EXPENSE

Stepping on small pieces of hot metal, walking on sharp chips of steel, standing in hot sand—these, and other harsh conditions of walking surfaces, in a steel plant, have no apparent effect on Neolin Soles. So says R. J. Doty, plant superintendent of the Stryver Steel Casting Company, Milwaukee, Wisconsin.

"The best oak tanned leather soles last about three weeks under the abuse given them in the foundry, while I have been wearing a pair of Neolin Soles for more than three months. And to all appearances, they are as stout as when first put on my shoes," says Mr. Doty.

Only Neolin Soles can resist wear and abuse like this. They are created by Science to be very tough and durable—flexible and waterproof, too. To reduce your own shoe expense, and to cut the family shoe bills, buy Neolin-soled shoes. You can get them in many styles for men, women, and children.

And have your worn shoes re-bottomed with Neolin Soles. These long-wearing soles are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outlast all other heels.

Yesterday a good Maxwell —Today a Better One

THAT is the policy of the Maxwell Motor Company. It began five years ago on a single chassis plan and today 300,000 Maxwells have been built on this program.

Not 300,000 Maxwells identically alike—for that would be admitting that the car has never improved in five years' time.

More than 1000 refinements have been made in the Maxwell.

But the original chassis plan was not changed. It has simply grown better as the days went by.

The logic of building one thing and thus building it well is too clear, too sound, too emphatic in results to argue against.

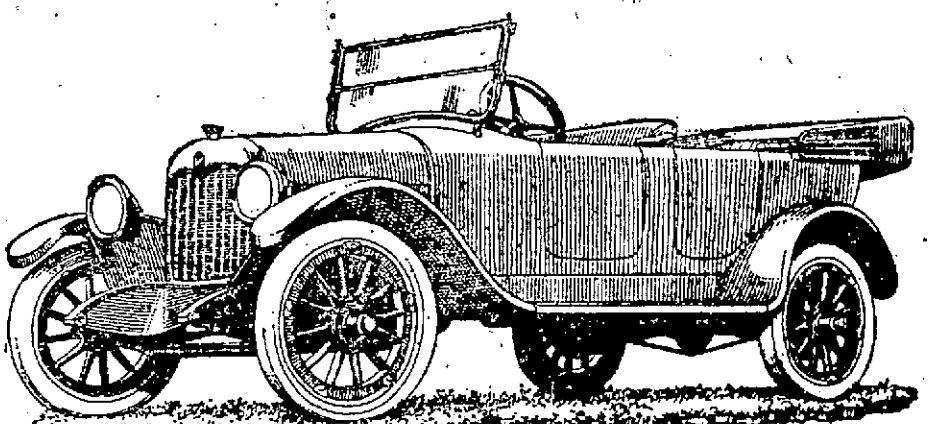

Like any fine piece of machinery the Maxwell seems to improve with age.

It runs on and on without end. We have never heard of a Maxwell salvaged.

There is no car with a better road ability record. And it saves many a thrifty dollar by shying at the repair shop.

This Maxwell you see today is not a new Maxwell; though many persons have thought so. It has been so much improved in appearance that our contemporaries in the trade repeatedly refer to it as the new Maxwell.

However, good looks have not in any way handicapped its running. And the latter is the main thing, after all, in a motor car.

COUNCIL'S GOOD MOVE.

The city council last night showed the right spirit when it unanimously voted to provide for the continuance of Fred Schmitt, superintendent of the United States labor service, in office for 90 days. Not only was the act commendable because it has shown a desire to be of real service at a time when an emergency arises, but the desire to cooperate with men who are doing big things for Janesville is manifest.

The chamber of commerce, upon notification that the United States bureau would be discontinued because of lack of funds to maintain the office, immediately threw open its doors for the establishment of the office force. It could not provide the salary for Mr. Schmitt, although he has realized his efficient work in handling the employment problem in this city. The council, sensing the advantage of having Mr. Schmitt's service, made it possible for him to continue the work.

With the city administration alert to the progressive steps that must be taken, and an organization of business men ready to back up every move that is for the good of the public, a combination is formed which will put Janesville in her rightful position as one of the coming cities of this section of the middle west.

THE SCHOOL SITE.

In this, the last week before the election at which the voters will determine whether they want a new high school as soon as a site can be purchased and a building erected, many arguments are heard pro and con the bond issue.

Those who have the welfare of the children attending the present high school at heart agree that no delay should prevent the erection of an adequate building as soon as the preliminary steps are completed. They know that a new high school is needed and they are willing to accept the judgment of the members of the school board, mayor, city council and men who have determined that the Main street site is the best to be obtained.

The choice of that site was not delegated to one man or one clique of men. It was the choice of representatives of the people and was made only after state and local architects and experts had considered the advisability of such a location.

It is rumored that many will vote against the bond issue because the people did not have a chance to vote on the site. That would only delay matters and would not win for opponents of the bond issue any advantage. Those who have been at the forefront in opposition to the site chosen by the people's representatives have not offered any other which would be practical. In fact, their opposition does not appear to be based on anything more substantial than a desire to have a say as to where the school shall be located.

The only criticism that could be made of the site chosen by city officials is that not enough land was designated. Janesville will need plenty of school grounds in the future. Other cities that have purchased sites for schools with one hand on the pocketbook have paid dearly for the lack of foresight. Many have had to buy additional ground room, because of increased school attendance, at exorbitant prices after it had been found that property adjacent to schools was the only parcels which could be used.

Janesville must make a forward step on this high school proposition. It is the first opportunity to show that civic progress which must be made in the next few years. No sooner will the high school matter be taken care of, than plans must be made for new schools in other parts of the city.

Those in the various wards who are opposing the high school site because it is not located at a point that is suitable to them, must remember that in the very near future, they will have a problem in which the remainder of the city will be interested. Co-operation on the high school matter will bring the grade school projects to a head quickly. Delay in providing a high school will mean delay all along the line.

Women have forged to the fore in this campaign and will be on the job early Tuesday to win votes for the bond issue.

HUNGARY'S POSITION.

The position Hungary has assumed in the last few days does not come as a surprise. It is the natural outgrowth of conditions which forced an issue. Hungary has been invaded on all sides by allies of the entente and as a result has turned to the only source from which she can expect friendliness, the Russian bolsheviks. Some such move on the part of Germany was to be expected. The allied peace terms have aroused great resentment and an envoy has been sent to Moscow to ascertain what arrangements can be made with the bolsheviks. Those in Germany who are now able to keep in check the radicals will not have any encouragement to continue their guardianship if the terms are so stringent that the German people cannot see anything but a huge burden that pictures extreme despair in the future. It may not meet with the approval of the allies to concede at this time anything to

Germany, but unless the pressure is relieved at some point, it is not improbable that the whole of Europe will again be in the throes of a war. That will mean America will be involved so deeply that she will have to go through with Europe's fight.

It would appear that the line-up will be Germany, Hungarian and Russian bolsheviks against western Europe. With Russia's great resources to draw from, the revolutionists would have great strength. England has internal trouble, as well as a situation in which Ireland is concerned, that would not place her in a favorable position if a general uprising occurred.

Italy's position is on edge and her radical element would perhaps be eager to mix in any move toward a revolution. Spain is restless and even France is not free from a radical element.

The bolsheviks of Europe are going to take every advantage of the opportunity to line up for a great revolution. The Paris covenant offers nothing to them which will check their inclinations.

Many of our citizens will purchase their spring finery in a few days. They are fortunate in having the opportunity to make a selection from the beautiful offerings in the stores. But as soon as the choice is made, take those used garments that you can spare, prepare them for the Red Cross and offer them for use of suffering men, women and children in Europe. You will enjoy your new things much more if you feel that you have made some one else happy.

Praise must be given the members of the local draft board who so earnestly served their country during the stress of war. With the packing up of the records of the office to be sent to Washington, another page can be written in Janesville's history of achievement.

If you believe there is no economy in maintaining our present system of county highways and can see the advantage of having permanent roads get into conversation with your neighbor who is hesitating over voting for the \$1,500,000 bond issue.

Switzerland has had to bear the brunt of war in more ways than one. Now she must put up with the presence of Ex-Empress Charles of Austria-Hungary. She is nearly as badly off as Holland.

One to look at the auto tags seen on the streets these days would almost be compelled to look at a calendar to determine whether this is the year 1919 or 1918.

—ROY E. MOULTON—

THE CRIME OF SUBSTITUTION.

The Ben Davis was invented as a substitute for the apple in 1887 by a dentist of Honolulu, N. J., and named in honor of an old gentleman who was killed when one of these apple substitutes was thrown playfully at him during a business meeting. The Ben Davis was used as a substitute for ammunition when Zachary Taylor ran short of cannon balls and resulted in the defeat of Santa Ana. Thus the Ben Davis has played an important part in history.

IN 1920.

Night—moon—a burglar grim.
A safe and a stick of dynamite;
Why does he toll with zest and vim,
And tremble there like a soul in plight?

What does he seek while good men dream,
And all the world is asleep in bed—
Silver and gold, or jewels that gleam,
Like the stars that twinkle overhead?

Behold the treasure trove in sight;
Oh, lucky fellow, smart and frisky;
The wealth of kings is his tonight,
For he has found a flask of whisky!

We often wonder if Julius Caesar was laboring under a forty p. pag when he invented March and put it into his calendar.

Congress voted \$200,000,000 to make our roads better during the next three years. How much would it cost to make them better permanently?

COURAGE.

You'll find it in the lullabies that patient mothers sing.
It's in the humble cottage where the shouts of children ring;
It fills the weary soldier's breast, it lights the plow boy's eye,
It's like the beauty of the sun, the glory of the sky.

It glows above the mountain top, it rides the stormy sea,
It's in the dream of every man who fights for joys to be.

You read it in the faces of the tollers homeward bound;
It spurs the sturdy pioneer who clears a patch of ground,
It stands beside a whirling lathe and drives within a mine,
It swings the axe in forest wild and tells the mighty pine;

It's stamped on every mother's face who brings a babe to birth;
It's the seed of every good which blossoms on the earth.

It's not alone in facing death, when that grim duty asks,
It's facing life from day to day with all its dreary tasks;
It's keeping faith with those you love, it's standing firm and true,
And bearing all life's bitterness for those who trust in you;

It's clinging to your glorious dreams when doubts and griefs assail,
It's the courage that makes them kin.

The War has taught us the meaning of true economy

WHEN the Government urged conservation and economy, it recommended the buying of quality articles that would give the maximum wear.

The mistaken idea that economy meant the purchase of cheaply made articles was removed forever.

MODART CORSETS

Front Laced

are made from carefully selected, high-grade materials only. MODART boning, cloth, thread, tape—all are quality materials. The boning in particular—that factor upon which the style and shape of a corset so much depends—is made especially for the MODART Corset from clock spring steel—the most perfect boning ever produced. It will not rust or take a permanent bend at the waistline. Every MODART Corset gives a high degree of satisfaction in wear and shape-keeping qualities.

ALL MODART Corsets lace in front—because front adjustment means right adjustment. The absence of laces at the back gives form and wonderful smoothness in gown fitting.

A trial fitting convinces. You have to put on a MODART to see its style and feel its comfort. Style and comfort are not easily explained.

Just look who's "camping" now. Would you ever believe that the dainty, fair-haired May Allison who has been called, by some poetic press agent, if there is such a thing, "the modest violet of the screen." This is May's very first vampire gown and she wears it in her newest picture, "Peggy Does Her Darndest." Although in the picture she isn't a scream all of the time, she certainly looks like it. As if she "had done her darndest" to try to be one. May even seems to be getting a thrill herself from such daring conduct. We will have to admit that even with the correct vamp pose, the alluring cherry, the décolleté gown and the snake-like train which is not all in the picture, May does not look exactly like a breaker of hearts and wrecker of homes.

A RECORD
Albert E. Smith has purchased for Alice Joyce Robert W. Chambers' story, "The Cambria Mask." This is the sixth Chambers story purchased by Vitaphone in all of which, except "The Girl Philippa," Miss Joyce has starred.

CLEVELAND PICTURE FINISHED
"The House Without Children," by Robert McLaughlin, which was being filed in Cleveland, is now finished and the work of cutting and assembling has been started. The titles will be made by E. A. Bushnell, the noted cartoonist. Richard Travers, but recently Captain Travers of the U. S. A., plays the lead with Greta Hartman opposite him.

MRS. CASTLE MAY RETURN
Mrs. Vernon Castle is again considering going into pictures. She has several interesting offers from film magnates since her return from abroad, as well as some tempting vaudeville contracts. It is thought she has a leaning toward pictures.

LITTLE STORIES OF STARS
Emmy Whelen is to pack her trunk and depart for the Metro west coast studios at once. She has signed a new contract with that company calling for a series of romantic comedies.

Mrs. Charlie Chaplin is in New York, the guest of Anita Loos.

The Fox film people have secured the screen rights to Justin Huntley McCarthy's "If I Were King" and will produce it for the cinema, with George Walsh in the stellar role.

There is a rumor that Theda Bara will eventually locate at the Famous Players studios.

Little Mary Alice Moore, small

Wallace Reid is to be starred in a picturization of the Peter B. Keyne novel, "The Valley of the Giants."

The screen rights to the Marie Corelli novel, "The Sorrows of Satan," have recently been sold. The consideration was said to be \$30,000.

SIDE TALKS

Four Ways of Dealing With Faults.
When a person with whom you are thrown in more or less contact constantly displays some small habit that exasperates you, what is the best way to react?

I suppose the sanest way is to say we all have faults and I won't let myself be exasperated by such a little thing. But alas, there are so few saints in the world.

I think there are exactly four ways in which ordinary human beings do react and I often wonder which is the best. She WILL be Across the Board.

In order to set those ways before you more clearly I'm going to use a concrete example. There is a certain woman with whom we play cards quite often. She has the most exasperating habit of talking across the board. "That card is good," she will say to her partner when she thinks he is in danger of trumping a good card, or, "No bid," I can't possibly bid with a hand like this," (said in a tone which, together with the words, tell her partner a great deal more than she has any right to tell him).

Now of course, this habit is very trying to the other players, even to her partner. Sometimes she will say things that if you took advantage of them, would make you make certain plays. You think you might have made those plays anyway but you can't be sure and you want to be fair. What is it up to you, to be fair? Either way you decide you feel wretched about it.

Now these are the four ways in which different people in the neighborhood react to that habit.

One says Behind Her Back. The first is to rave about it behind her back. "Did you ever see anything like the way Mrs. X. talks across the board?" She makes me so mad, oh, then to sit at the table with her the next day, and when she repeats the process to simply grin and bear it.

The second is never to tell her directly what you think of her but talk at her. For instance, my next door neighbor skillfully brings into the conversation a woman who used to live here before Mrs. X., and whom she could never play cards with because she talked so across the table. Another simply won't Play With Her.

A third, is to refuse to play when Mrs. X. plays. Wouldn't you know it was a man who resorted to that expedient—it's more a man's way.)

A fourth is to tell her frankly and friendly, not in the guise of a jest, that she does talk across the board too much, and it isn't fair.

And now you have the four ways before you, which do you like best? I know which is the fairest, but I'm not at all sure it brings the best results. You see, I saw it tried on Mrs. Y. and I heard her appeal to two other women who immediately failed to support the critic's dictum. The result was, that she took a hate for the critic and discarded her criticism. It's an awfully funny world when you stop to think of it, isn't it?

WOLVES OF THE SEA

By RANDALL PARISH

Copyright by A. C. McClure & Co.

When called I exchanged but few words with LeVere. He went quickly to his room. Nothing of importance occurred during my watch.

The dawn came cold and gray but with clearing skies. I climbed into the main crossstrees and swept the horizon with a glass. Not so much as a speck rewarded my efforts, and I descended the ratlines, shouting to the boatswain to call the port watch. Watkins came aft to the wheel and I sent the fellow thus relieved down into the cabin to rout out LeVere. The two returned to deck together, the negro glancing about curiously without mounting the ladder.

"You call Senor Estada yet?" he questioned.

"No; I had no orders to do so."

"He tol' me call him at daylight. Here you, Amada; go wake up the senor."

The seaman disappeared, while LeVere crossed the poop deck and stood beside me looking out across the expanse of sea.

Amada emerged from the companion and stared up at us, shading his mouth with one hand as he spoke.

"No answer nothing, Senor LeVere."

"Was the door locked?"

"I know not, senor; I not try to open it."

"The pig-headed swine," said LeVere.

"He answer nothing, senor."

"The swine," said LeVere, "I suppose I'll have to go myself."

"We'll go down together, senor," I said quietly. "Estada must be sick; I could hear the rumpus Amada kicked up even on deck here. No man could sleep through that racket."

CHAPTER XVIII.

A New Conspiracy.

The interior of the cabin appeared desolate in the gray light of dawn. I led the way directly to Estada's stateroom. My heart pounded like a hammer as I rapped on the wooden panels and waited some response from

RHEUMATISM LIKE A MULE

You've got to coax it to make it go. "Neutrone Prescription 99" will start the most stubborn and dogged case of rheumatism.

We have witnessed its effectiveness in hundreds of cases, it does things.

"Neutrone Prescription 99" is entirely different from the old preparation in that it aims at eliminating all Rheumatic poisons by purifying the blood, common sense teaches you this.

It removes those awful pains, lingers up those swollen stiff joints and muscles in a way that will surprise you. Get a bottle today. See the old stuff out of your system. 50c and \$1.00 the bottle at your druggist. Smith Drug Co. and leading druggists everywhere.

The Best Cough Syrup Is Home-made

Here's an easy way to save 50c and get the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly turn it into a permanent place in your home. Into a place where you'll never want to get rid of it. It's a simple, granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup. Instead of sugar syrup, either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm from the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pine is a highly concentrated and compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "25 ounces of Pine" with all directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pine Co., E. Wayne, Ind.

PETEY DINK—PETEY'S DANCE MIGHT BE CALLED THE "COOTIE TICKLE."

AUNTIE, JUST LOOK AT UNCLE PETEY DANCING. HE'S HAVING THE TIME OF HIS LIFE AT THESE COSTUME BALLS.

HA-HA-SOME JASS!

He spread his hands and shrugged his shoulders. "There is no hope of me; I was born to the free life."

"What then is it with you?"

"Hate, senor—revenge," and his teeth gleamed savagely. "I would spit on this Manuel who seeks to be chief. I can never be—no; I am of black skin, with negro blood in my veins, and white men would never have it so. But I can hate, senor. That is why I am with you now, if the devil so will. Your plan might work—tell me more of it."

"What are the odds, say you—thirty to a hundred? Ay, but surprise will overcome that. My plan is this: First to secure Manuel as quietly as possible but at whatever cost. With him in our hands, or dead, the buccaners have no leader. What then? There are men in the crew on deck and in the forecabin to be trusted—Watkins is one, and he will know others, a dozen no doubt. They will be enough. We will whisper the truth to those, and have them ready for a signal. The forward door from amidships is closed by iron bars—is it not?"

face the guns. I'll give them their choice."

"And what will you tell them, senor?"

"I caught my breath, conscious of his meaning. My secret hope could not be revealed to this fellow. The answer came quickly to my lips."

"The whole truth, Senor LeVere—that Manuel conspired to seize the bark through a mutiny of the buccaners; that these were to be turned loose with license to kill anyone on board who opposed them; that their real purpose was to divide among themselves all the treasure below, then wreck the vessel and escape with it. That to this end Estada had already been murdered. I shall explain that we discovered this conspiracy just in time to save them from butchery, and they must stand by us or else submit to those hell-hounds."

"And after that, senor?"

"Why, Porro Grande, of course," I admitted heartily. The men will understand that that means a handful of gold for each of them and a run ashore. Why, LeVere, they will make more apiece than by looting a half dozen ships, and with no fighting. It will be a fortune for you and me."

His somber eyes lighted up, startled by this new idea, and he sprang to his feet.

"You mean that, senor! We divide what is below and sail for Porto Grande? I hear you right? You not mean surrender? You, say pirate?"

I laughed, my nerves tingling to the success of my ruse—he had taken the tempting bait like a hungry fish.

"Why, of course. I am not such a fool as to throw away this chance. This is our chance, LeVere. If we put the Namur into Porto Grande, with Sanchez on board and alive, and those hell-hounds locked below, we'll get anything we ask for. We'll be the cocks of the walk. If he shouldn't live through, why then we'll have a ship, and can run the game alone. Either way, if we win, the prize is ours—and if we stick together we win."

My apparent enthusiasm caught the fellow. I could read the working of his mind in his face. This new view of the situation promised wealth, power, the total defeat of Estevan, everything he most desired.

"You think Senor Sanchez lives?"

man has been murdered, knifed. 'Who did it—and why?'

He could scarcely answer, gripping at the table for support, and never removing his gaze from the face of the dead man. Yet I believed his words; was convinced this was not the terror of guilt.

"My God! I cannot tell; I have never dreamed of this."

"Had the man enemies. Anyone you would suspect?"

"Enemies? Ay, plenty of them; we all have. We expect that in our trade. This ship is full of devils ready enough to do such a job; but I could not name the one who did it. I know of no cause. I have heard nothing."

"I believe you, LeVere," I said.

"What can we do, senor?"

"Do! We must talk that over first. We cannot meet this thing until we are prepared. There is more danger in hasty action than anything else."

I shut the door behind us and turned the key. It was a relief to get outside, even into that dismal cabin, beyond view of Estada's dead face. LeVere, who had evidently lost his nerve, sank into a chair.

"You fear an uprising, a mutiny?" I questioned, "when this is reported?"

"What will prevent?" he asked.

"The captain cannot stir; the mate is dead; the men already crazed because we take no prizes. They will murder us also and take control. Those devils amidsips."

"And who leads them? Who would be captain?"

"Manuel Estevan," he whispered.

"I thought as much. Then it is Manuel Estevan we must secure first—before they know. Whatever his men may know of what has occurred they will make no move until they get his orders. We must stop the possibility of his issuing any. Without a leader the advantage is ours."

"You mean to kill him?"

"Only as a last resort. There is no good feeling between those quartered amidsips and the crew."

"No, senor; it is hate generally, although they are not all alike. The real sailors are mostly captured men; they serve to save their lives, and only for these others on board could not be held long. Your plan, senor, is to set the one against the other?"

"Yes, if possible. These sailor men are of all races. Can they be trusted?"

"Some might be, sir; it is hard to tell how many. It is not the race which counts so much, senor. There are those among them who would not care to return to honesty."

"And you, LeVere?"

Dinner Stories

One of our good housekeepers knows she has no ear for music, but she is having around her pots and pans and scrubbing and washing out tea towels she cannot restrain humming a bit just out of her cleaning up joy. Now there is also a little neighbor boy who plays under her

window. Once, while the process of scrubbing was going on above, the little fellow looked up at the window with a pale face all puckered and serious, as if some question had been troubling him for quite a while.

"Well, Tommy, what's the matter?" inquired the housekeeper.

A long pause—then, "Please, ma'am, is you singing?"

"France's success in this war," said Gen. Oscar L. Sandish of San Francisco, "has been due to great advantage to the readiness of her comeback. No matter how hard Germany hit her, France has always returned the blow with speed and vigor."

"France, in fact, has been as ready as the school teacher, who proposed to the school teacher said scornfully, 'Do you suppose, Mr. Doolittle, that I'd marry a man so delighted as that I'd marry a housewife in his pocket for luck?'"

Doolittle paled. Then, recovering himself, quietly he took out his horse shoe, laid it on his knee, patted it and said, "Well, I guess nobody'll ever doubt your efficacy after this."

"Dearest," he murmured as soon as they were seated in the high priced restaurant, "you can have anything you want on the bill of fare. Shall I read it off to you?"

"No," she replied hungrily. "Just read it off to the waiter."

Corns, Calluses Quit Quick!

Two Drops of "Gets-It" Will Do It.

Ever hand-carve your toe with a knife trying to get rid of a corn? Ever use scissors and snip off part

of the corn too close to the quick? Ever pack up your toe with "contraptions" and plaster as though you were packing a glass with hot water? Ever use sticky tape that peels off when you pull your stockings off? Kind of foolish, when 2 or 3 drops of "Gets-It" on any corn or callus makes it quit. Why putter and suffer? "Gets-It" stops corn pains. It cures you, it cures your corns, it cures your calluses, even with corns. It's the only common-sense way. The only simple, easy way—peck corns off like a banana. "Gets-It" is the guaranteed, money-back corn-remover. The only sure way to get rid of corns and calluses. Sold by E. Lawrence & Co., Chicago, Ill.

Sold in Janesville and recommended as the best corn remedy by Smith Drug Co., J. P. Baker, Mr. D. Sherer, Reliance Drug Co., Mr. D. Sherer, Reliance Drug Co., Mr. D. Sherer, Reliance Drug Co., Red Cross Pharmacy.

DOCTOR SAYS ONE LUNG IS HEALED AND OTHER NEARLY SO

Urges patient to keep up the treatment that did the work.

"I had consumption of the lungs for six years. I had an abscess in the right lung and it remained open in the open air nearly all the time. I used six raw eggs a day and a pound of milk and a pound of butter and a pound of honey and was just barely able to walk around the house a little."

"I began using Milk Emulsion in June. I have now taken my eighteenth bottle and feel greatly benefited. I had my doctor examine me and he said that one of my lungs was healed and the other was nearly so. He urged me to keep using Milk Emulsion, which I intend to do. My original weight was 170 pounds. I have regained most of it. Now weigh 160 pounds and feel about as strong and good as I ever did. My only regret is that I didn't hear of Milk Emulsion six years ago."—Grady Dees, Magnolia, Ark.

Whether Milk Emulsion would succeed as well for you as it did for the above case, is easy for you to find out. It is at least bound to benefit you, and it costs nothing to try it.

Milk Emulsion is a pure, nutritious food and a corrective medicine. It restores healthy, natural bowel action, doing away with constipation and promoting healthy, natural bowel action. It is strongly recommended to run-down, nervous people, and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day. It works like magic on coughs and colds.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. No matter how severe your case, you are urged to try Milk Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk Emulsion Co., Fort Wayne, Ind. Sold and guaranteed by J. P. Baker.

How to Get Rich

Not wealthy—just rich enough to be SAFE.

Barring accidents, any young man or woman can do it. Most men and women can start in middle age and do it.

How?

Earn money. Fit yourself to earn more every year. Save part of what you earn. Make your savings earn more money; make them earn the best going wage for money.

Don't take a lower wage for yourself than your work is worth. Don't take a lower wage for your money than it is worth.

Money's wage is highest when its owner is willing to lend it for a stated length of time. The borrower knows he is going to have the use of it for that length of time, and can plan accordingly.

If you want your savings always where you can get them at a day's notice, their wage will be low—seldom more than 3%.

If you are willing to hire out your money for a term of years, you can get as much as 7%—\$7 a year per \$100—for it, at this time.

The Milwaukee Electric Railway & Light Company is offering that wage for money right now. We are hiring \$3,600,000 for a 5-year job—Nov. 1, 1918, to Nov. 1, 1923. We are getting it from our friends and neighbors here at home. We have got nearly \$2,100,000 of it. We expect to get the rest within 90 days.

We are paying 7% for this money—the highest going wage for money SAFELY invested for a 5-year term. We are selling our 5-year, 7%, bond-secured Notes at par for cash in \$50, \$100, \$500 and \$1,000 sizes.

The \$50 Note pays \$3.50 a year—\$1.75 May 1, \$1.75 November 1.

The \$100 Note pays \$7 a year—\$3.50 May 1, \$3.50 November 1.

The \$500 Note pays \$35 a year—\$17.50 May 1, \$17.50 November 1.

The \$1,000 Note pays \$70 a year—\$35 May 1, \$35 November 1.

You collect interest by clipping coupons—the same as on your Liberty bonds—and taking them to the nearest bank.

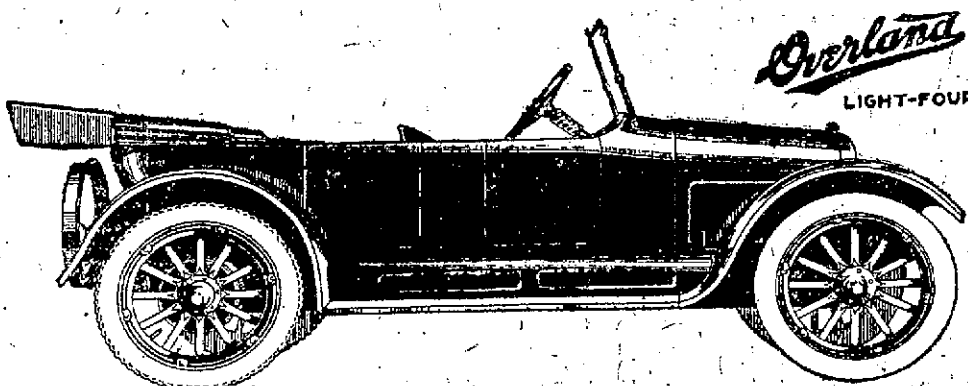

You get your principal back in cash November 1, 1923.

If you need your money before November 1, 1923, bring your Notes to our Securities Department and we will put them on sale.

SALES OFFICE: Securities Department, Public Service Building, Milwaukee, Wis.

"The Notes are for sale in Janesville at the MERCHANTS & SAVINGS BANK."

"Well Built"

The admiration for the Overland is due not alone to its sturdy and graceful appearance but to its utility as well. By its use thousands have increased their efficiency and added to their physical well-being. Over 600,000 Overlands are now in use. More than one-fifth of them are Model 90. No more conclusive evidence of public approval could be had. Overland success is largely due to the fact that Overland owners have not only bought Overlands themselves but have enthusiastically recommended them to their friends.

SPORTS

SPORT SERIAL

(By K. L. DAGON.)

Right here, let it be entered into the minutes that Janesville ought to have a baseball team to represent it this year. If we can't put on a show daily and Sunday, in some regular league, we sure can amass and support an all-star nine to go out and knock down some of our hefty neighboring villages, who may find it behooves them to spoof us on this subject. The writer will be tickled pink to hear from eligible players and anyone who is interested in "made in Janesville" baseball, who qualifies.

Twilight baseball seems to have gone. But the magnates were for it so they couldn't see the war crowds in the dusk.

They've formed a new Three-Eye league, and Rockford, has a berth. Which, comma: The magnates sigh. The poor fans cry. But the old Three-Eye, will never die.

Ballplayers must be in the hay at ten or before, they must be as free from J. Barleycorn as a snake from hips, and they can't do anything more thrilling than read Snappy Stories and attend a movie. After July 1, they won't have to. Ray Caldwell, please copy.

The hold-outs all being under cover, we now shall hear from the kick-outs.

Connie Mack was quoted the other day in the *Lost City* as saying: "The Athletics have a chance this year." So has a life term—to die.

They flopped a young bird in Matewan the other day who tried to make Miller Huggins believe, he could return a no-hit victor every time he entered the box. Finally, to get rid of the nut, Huggins bit.

"Howdydydydy!" he snapped. "Easy," said the Nut. "You simply pass every batter and catch 'em off first. Of course, you've got to have a wicked wing. I got 'er." He got 'er.

We understand some of the ballplayers who keep the benches warm during the season just because they're too old to be tossed off, or have a contract they got by using either, have paid their board bills and are again cutting regularly. Pretty soft.

SPORT GOODS PRICES DOUBLED IN 4 YEARS

(By Associated Press.) Chicago, March 25.—Prices of practically every class of sporting goods are from 10 to 50 per cent higher than in 1918, according to a schedule just issued by one of the largest manufacturers. The chief reasons advanced are the 10 per cent war tax on sporting goods, which recently became effective, and the high cost of material and labor.

Manufacturers declare that it was their intention to reduce prices on a number of articles, but that the war tax made this impracticable. Since 1915 prices have increased more than 100 per cent on a majority of articles. Baseballs and bats are about the only sporting goods articles which

DETROIT BOWLERS COLLECT HONORS AT TOURNAMENT

Toledo, O., March 25.—With the exception of one Cleveland pair, which is on the schedule today, the American Bowling Congress tournament will be over to Detroit doubles and singles rollers.

All are members of thirty-two Michigan fives that occupied last night's entire schedule. The three Wheeling entries also are down for the first shift tonight. Tonight one team each from Fond du Lac, Decatur, Cleveland, Columbus and Lancaster will fill out the squares.

On the second night session are three from Chicago, three from Minneapolis, three from Columbus, two from Milwaukee, two from Cleveland, and one each from Oshkosh, Canton and Massillon. Following are the leaders in the five men, doubles and individuals:

WEST SIDE DRIVES READY FOR TOURNAMENT; TWO CUPS OFFERED

Activities in the Southern Wisconsin and Northern Illinois bowling tournament will open tomorrow at the West Side alleys. Manager "Hank" Robbins has the drives well oiled and polished until they are about the fastest in this section of the state. Some high scores should feature the tourney.

Two silver loving cups have been offered. The Gazette has donated a cup to the highest individual game in any event, while the West Side alleys offers one to high man in all events. In addition to these prizes the entry money will be hung up for the winners in the singles, doubles, and five-men events.

About 30 teams have entered to date and more are signing up daily. Seven Janesville teams will compete, six from Madison, six from Rockford, four from Beloit and two each from Fond du Lac, Sun Prairie and Watertown, and one from Clinton.

have not been increased in price this year. One Chicago authority said prices on these would have been reduced had the war tax not been levied. Instead of reducing the price manufacturers compromised by maintaining last year's figures.

The biggest increases are in sport shoes, baseball catcher's masks, gloves and mitts. Golf clubs will average 50 cents higher and golf balls will cost 10 cents more. Dealers declare that no reduction in prices may be expected until the war tax is either cut or removed.

Dentetral Here For Bout With Sweeping Defy

By Kid Bill

There's a wrestler in town today, who challenges the world at 165 pounds.

He bars none, and holds up a pretty fair record of past deeds to bolster his argument.

The bird is Young Demetral, who is due to match up with Janesville Sampson, the Indiana cyclone, for the best two falls out of three at Myers theatre, Wednesday evening.

"Sampson is going to be a hard man to lick," said Demetral, today. "but I believe I can put him away. If I do, I am going after some of the best men in the country. I have issued a general challenge to any wrestler weighing 165 pounds or less."

Demetral will weigh into ringside tomorrow night at 155, while Sampson's manager says he will tip the scale at about 160.

There will be some good preliminaries.

SHEET METAL LOVING CUP GIVEN HUEBEL'S VOLLEYBALL CHAMPS

At Huebel's champion volleyball artists held down the seats of honor at the banquet, given by the losing teams in the business men's league at the Y. M. C. A. last night. Captains and teams for the next round of the league were chosen, a schedule was drawn up, and a program of indoor baseball, volleyball and class work was adopted, after speeches by captains of the old volleyball teams.

The feature of the evening's entertainment was the large sheet metal "loving cup," presented to the victorious team by H. S. Lovejoy in a flowery speech. Capt. Huebel speaking for his team graciously acknowledged the gift and thanked the losing teams for their kind remembrance.

Speeches were given by Captains Tallman, Kuhn, Lovejoy, and Huebel. Capt. Tallman gave a few pointers on "How to Win the Cellular Championship."

Captains for the four new teams in the final round together with the names of their crews are: Bassett's "Bums," Woods' "Wops," King's "Kooties" and Dale's "Daisies."

The first game will be played tomorrow afternoon at five o'clock, when the "Wops" will clash with the "Kooties."

By a vote of the 25 men present it was decided to hold class work Mondays and Fridays preliminary to the games, and to stage volleyball contests Wednesday and Fridays with indoor baseball games Mondays.

The four teams were chosen as follows:

"Bums"—Capt. P. J. E. Wood, Basnett, R. G. Cunningham, Dougherty, Hemming, Huebel, Pegelow, Weber, Wolcott, Zimmerman.

"Kooties"—Capt. King, Berger, Blackman, R. J. Cunningham, Dundee, Erickson, Homberger, Whaley, Wilcox, L. Levy.

"Daisies"—Capt. Dale, Ehrlinger, J. Jensen, Langdon, L. Levy, Lovejoy, Aluenchow, Pierson, Sheldon, Solle.
